

Events calendar 2016-17

Professional development workshops

These workshops are composed of up to 30 delegates giving everyone the opportunity to participate and discuss the given topic. Our professional development courses involve group work, reviewing case studies and all delegates receive printed guidance and resources to take away.

Network and learn events

These larger events bring together our membership with a focus on learning and sharing best practice among peers and industry leaders. Each event features a panel made up of our Member and Partners organisations facilitated by one of our disability consultants. Delegates will then be given the opportunity to network over refreshments.

Flagship events

Our flagship events bring together BDF Members, Partners and our stakeholders. These are our largest events with up to 250 delegates in attendance. BDF flagship events are an opportunity to celebrate best practice and acknowledge key work being done around disability and business. BDF also uses these events to launch new research and guidance.
